Docket Numbers: E-01345A-16-0036 + E-01345A-16-0123

Dear Arizona Corporation Commissioners,

On behalf of the Phoenix Electric Auto Association, we would like to add our opposition to increasing the basic service charge for consumers under APS' jurisdiction.

In order to help APS manage the excess demand load at night, 80% of our members charge off peak at home at night and the other 20% while on the road and through public charging stations.

We find it unconscionable for APS to charge consumers more money, when there has been no justifiable reason presented for the need to raise the cost of basic service or rates. We do not want this rate increase to negatively affect our members, who have chosen to invest in energy efficiency and clean energy as a way of life.

Thank you for your time,

Jim Stack

President

Arizona Corporation Commission
